

(a)

ds004830, n = 12
overt attention
screens $0^\circ, \pm 45^\circ$

**(b)**

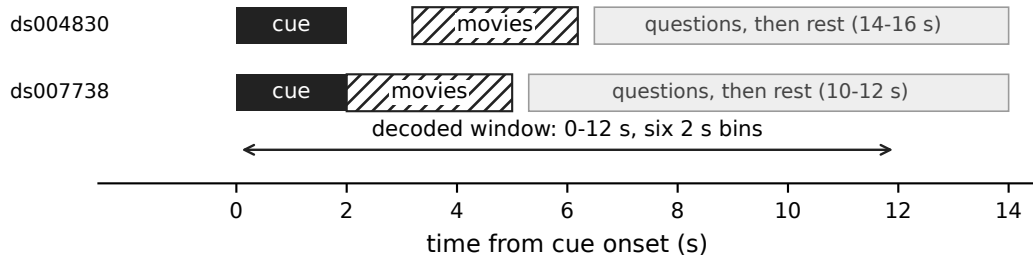

ds007738, n = 29
overt attention
screens $\pm 30^\circ$

ds007738
covert attention
(sound cue, eyes fixed)

ds007738
eye movement only
(no stimuli)

**(c)****(d)****within-subject**

one person; train and test on
different trials of that person (5-fold)

**subject-independent
(zero-shot)**

train on everyone else;
test on a person never seen

calibration

everyone else + k labelled trials
from the new person; test on the rest

■ training data

▨ test data

■ new person's calibration trials
